THE CUCKOO

Only Stuffed Specimens of an Extinct Bird.

After the deluge of olden days, as recorded in Genesis, some mammals, birds and fishes became extinct. They were never seen alive afterward, but persons delving into the ground found paleontological traces of them, like the remains of the ichthyosaurus or the oolite. The election of Tuesday last was somewhat in the nature of a political flood, carrying with it a Republican majority of the popular vote of one million and a quarter. Among other things it engulfed the cuckoo.

The political cuckoo, the Cleveland Cuckoo, the Cuckoo Congressional, has disappeared. He is gone, we shall never see him more; he is extinct, deluged out. The Cuckoo is beyond the reach of political game laws. Except as a curiosity for the political naturalist to be exhibited in a glass case, the Cuckoo will not again see the light of day. The deluge of Republican votes on Tuesday, and of Democratic votes for the Republican ticket, ended his career, transferred his chirp from the category of ever-present annoyances, to the short series of dead-bird idiom.

Some excellent specimens of stuffed cuckoos, of prospective future value as curiosities, are to be found in Buffalo, N. Y.; Charleston, W. Va.; Albany, N. Y.; Boston, Mass.; Greenwich, Conn.; and Madison, Wis. Like the Columbian stamps, drawn off by collectors from circulation, there will soon be a premium on cuckoos; and there is a veritable appropriateness, considering the origin of the bird in politics, in fact that hereafter all cuckoos will be stuffed.—New York Sun.

There have lately been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." These books are given various names, "Webster's Unabridged," "The Great Webster's Dictionary," "Webster's Big Dictionary," "Webster's Encyclopedic Dictionary," etc., etc.

Many announcements concerning them are misleading. The Webster reprint portion of each from A. to Z. is the same—forty-six years behind the times, and printed from plates made by photographing the old pages.

The old book has been padded out by various additions culled from various sources, but the body is the same that was published when Polk was President and duly buried at the incoherence of Lincoln. The Webster, current from Lincoln to Harrison, is the popular copyrighted "Unabridged," which has recently been superseded by Webster's International Dictionary.—See advertisement in another column.

Mrs. Mary Elizabeth Morrison and thirty other young women and men graduated on Tuesday night from the medical department of the State University. Miss Morrison's percentage was higher than that earned by any graduate in the past ten years, she having 97.1 per cent.

The County Treasurer of Ellsworth county, Kansas, is short \$11,130. This shows the necessity having an honest man for Treasurer.

George F. Davis, of Carson, who recently died in San Francisco, left an estate worth about \$300,000 to his widow and five children.

It is stated that Mt. Rainier, near Seattle, Wash., is in a state of eruption and causing much excitement in that section.

Governor Jackson, of Iowa, announces that he will not be a candidate for re-election.

Graham continues to show to the world that he is a flat failure as a Secretary of State—no better than Bayard.

Budd is about 1,270 ahead of Estee—but how about the San Francisco frauds against Estee?

The Lick statue is to be unveiled in the City Hall avenue, San Francisco on Thanksgiving Day.

Dawson's big quarry, at San Jose, was burned on Wednesday. Loss, \$30,000.

Virginia City and Carson have recently been visited by a series of earthquakes.

President Cleveland has sprained his ankle.

It is said that Queen Victoria has lately aged very rapidly and is failing very fast.

The late election cost San Francisco about \$225,000.

John Bedding was killed at Pine Grove on Monday morning by a cave in a mine.

HAUNTED!

A haunted house is something of a rarity, but an individual haunted with the idea that his meat is incurable is a personage frequently met with. Disbelief in the ability of medicine to cure is only a mild form of monomania, although in some cases repeated failures to obtain relief from many different sources would almost seem to justify the doubt. Hostetter's Stomach Bitters has demonstrated its ability to overcome dyspepsia, constipation, liver and a host of troubles, material complaints and nervousness, and its record of achievement in curing the human race is at least as brilliant as that of any one troubled with either of the above ailments, even although his previous efforts to remedy his ailment have been fruitless. Used with persistence, the Bitters will conquer the most obstinate cases.

SLOW PROGRESS

The San Joaquin Valley railroad project of Leeds does not seem to be gaining much headway, notwithstanding the appeals of Leeds and some of the papers of San Francisco. They cannot raise sufficient subscriptions in San Francisco to incorporate the Company, let alone building it after the Company is duly incorporated. There is money enough in San Francisco to build the road, but the people of that city prefer to have somebody else build and they to reap the benefit. They could have controlled the Central Pacific railroad when it was projected, but not one dollar of personal subscription to its stock could be obtained in that city, and it looks as though such would be the case in the matter of the so-called competing road through the San Joaquin Valley.

CALIFORNIA PRESS ASSOCIATION.

The annual meeting of this Association will be held at Sacramento on the 11th of December and close on that evening. Next day the members will take a trip to Reno in a special Pullman train—a daylight trip, and from Reno it is probable they will make an excursion to Virginia City. Leaving Reno on the 14th they will stop at Truckee, Dutch Flat and Auburn to view the forest and winter scenes near the Humboldt, the hydraulic mines, and the olive and orange groves at the foothills. It will be a grand and pleasant trip for the poor fellows who have just emerged from an election campaign.

BOOK OF THE FAIR

We are in receipt of Number Fourteen of The Book of the Fair, a grand reproduction of the great World's Fair in Chicago. As the buildings of this grand exposition have been burned and removed this great work of the Bancroft Co., of Chicago and San Francisco, becomes invaluable, it being a perfect reproduction of the great exhibit so far as the "Art Preservative" can give to the world. The engravings are of the highest merit, and its descriptive matter is clear and condensed and when completed in its twenty-five numbers the fortunate possessor of this beautiful work will have a faithful history and illustrated reproduction of the greatest Fair the world has ever seen.

This seems to be a year of unprecedented zoological misfortune. The great elephant tip has been poisoned, the Democratic jackass has been buried, the Russian bear is dead, the British lion is in trouble, the American beaver is prohibited from Germany, and the Princeton and Tammany tigers have met with crushing tumblers. The American eagle is the most wholesome beast in the collection.—New York Commercial Advertiser.

The Fresno Expositor has been sold at a foreclosure sale, and there will probably be a change in its political tone. Under a new management it will be an independent journal, instead of a rabid Democrat, as formerly.

Congress will meet next Monday week—Those who have been elected to stay at home will not be over zealous in attending to their Congressional duties.

Stipend election frauds are charged against San Francisco and several election officers have been arrested for fraud in making up their returns.

Paul Conrad, President of the Louisiana Lottery and the Honduras Lottery, is dead.

NEW TO-DAY.

WEBSTER'S INTERNATIONAL DICTIONARY

Standard of the U. S. Gov't Printing Office, the U. S. Supreme Court, and of nearly all the Schoolbooks. Warmly recommended by every State Superintendent of Schools, and other Educators almost without number.

A College President writes: "For ease with which the eye finds the word sought, for accuracy of definition, for effective methods in indicating pronunciation, for terse yet comprehensive statements of facts, and for practical use as a working dictionary, Webster's International Dictionary exceeds any other single volume."

The One Great Standard Authority. Hon. D. J. Brewer, Justice of the U. S. Supreme Court, writes: "The International Dictionary is the perfection of dictionaries. I commend it to all as the one great standard authority."

A saving of three cents per day for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

LOCAL INTELLIGENCE.

Personal.

Alfred V. Morgan, late of the Bodie Mines, and J. W. E. Townsend, of the Homer Index, Lundy, left for the other side of the mountains on Saturday last. Mr. Morgan goes to hunt for "pastures new" in the newspaper line, and "Jim" Townsend is suffering from rheumatism and goes for health.

Superintendent E. L. Reese, of the Bodie & Benton Railroad Co., and his friend, Mr. Thayer, of San Jose, came over from Bodie on Sunday with Supervisor Boyd, and departed on Monday's Antelope stage en route for San Francisco.

Warren S. Perkins, Vice President and Secretary of the Oxbow Hardware and Tool Company, of San Francisco, nephew of Mrs. B. M. Folger, who is still seriously ill, arrived here on Sunday evening last.

George Kinney, wife and child, accompanied by Mrs. Ann Summers, Mrs. Kinney's mother, left for Bishop yesterday.

A. F. Bryant has been very sick this week, but is some better this morning.

The continued serious illness of Mrs. B. M. Folger, and our senior R. M. Folger having been confined to his bed most of this week we have been unable to give much attention to local news matters.

RUNAWAY TEAM.—On Saturday afternoon last Mrs. Byrne's big team with a load of lumber passed our office and before the Court House was reached a cart containing two ladies was driven by it, scaring the team which started on the run. They hugged the Court House shore and in turning into Main street, one of the heavily loaded wagons struck the Court House corner at the Sheriff's office, carrying away two large foundation stones and tearing away a goodly portion of the wood work, and carrying one of the stones some twenty feet towards Main street. The occupants of the Court House, particularly the Grand Jury, in session up stairs, thought the jar of the building was a heavy earthquake.

On Wednesday the stones were replaced and P. Parmeter repaired the wood work.

A REQUEST.—Teamsters and others driving through town will oblige us greatly by not passing the CHRONICLE-UNION office and residence, on account of the very serious illness of Mrs. R. M. Folger, as the noise and jar have a great tendency to retard her recovery. We ask this as a great favor.

FOR CASHION.—Wash. P. Brandon's big team left for Carson on Thursday morning for more machinery for the Lakeview mine at Lundy. Willie Butler, with his big team, left the same day for Carson for freight for Lundy. Brandon going over the Antelope road, and Butler via Sweetwater.

GIVE THANKS.—Next Thursday will be Thanksgiving Day. The Day will be observed here over the usual turkey dinner, as the ranchers are beginning to bring in their turkeys.

THANKSGIVING BALL.—The Orchestra will give a ball at Bryant's Hall on Thanksgiving night—next Thursday. Of course the music will be fine, and there will undoubtedly be a good attendance. Admission at the door.

GRAND JURY REPORT.—The report of the Grand Jury will be found on this page. There is nothing particularly striking in the report, the jury having found that the affairs of the county had been well conducted by an efficient corps of officers.

PAY YOUR TAXES.—The first installment of taxes will be delinquent at 6 o'clock on Monday next, 26th. We pay your taxes and save 15 per cent costs. Taxes are coming in well.

The beautiful weather continues, but a good fall of snow would be more conducive to the health of our people. The days are very warm, while the nights are freezing cold.

GIVEN OUT.—The stock of ice laid in last winter has given out, and the sick now have to depend on what can be frozen in this old doors at night.

ON DIV.—That Bridgeport is to have a wedding before Christmas. Lundy is to have one next week.

CLOSED DOWN.—Hawks' Sawmill has closed down for the season, after a very successful run.

DIVIDEND.—The Bodie Con. has declared an 8th dividend, payable Dec. 5th.

There will be a lunch at the Orchestra hall.

Moved by Boyd, seconded by Arrild, that the Chairman be and he is hereby authorized to accept 20 cords of wood from B. L. Simmons for use of Court House, said wood to be ready for acceptance by Dec. 3d, 1894, and that the Auditor be and he is hereby instructed to draw his warrant on the General Fund of the County in favor of said Simmons for \$50, when said wood shall have been accepted by the Chairman. Shimm for said sum, to be by him used for said purpose, it being understood and agreed that if for any cause said McCabe shall not be sent to his sister then the \$50 is to be returned to the County Treasury. Carried by unanimous vote.

H. A. PITTS, Chairman.

J. D. MURPHY, Clerk.

Stone, of Pennsylvania, will introduce a stringent bill to restrict immigration when Congress meets. He is impressed with the belief that the late election shows that the people want immigration stopped; that the higher wages in this country induces the foreign element to come to this country, resulting in the reduction of wages and throwing out of employment our own people.

It is said that President Cleveland is worth \$6,000,000. It seems to be a good thing—for him—to be President, as he was a poor man when he went into office. No Republican President ever went into office a poor man and came out with more than what he could save out of his salary.

Some of the radical Democratic papers are laboring hard to show how Cleveland could get rich honorably while President. It would be hard work for them to "see" it if Cleveland was a Republican instead of being a Democrat.

The consensus of opinion of the woolen goods dealers in London indicate a slow but encouraging increase in the export of high-class goods to the United States since the passage of the American tariff bill.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

We find that the District Attorney has performed the duties of his office in a creditable manner, and has kept the proper record of all criminal proceedings.

We have examined the books of the County Superintendent of Schools and find that they are written up to Oct. 31, 1894, and they are correct as compared with the Treasurer's books.

On examination of the books and records of the Public Administrator for the last year

We find that there has been two estates closed and a final discharge granted in each, to wit: The estates of W. C. Nix and James Roy.

There is now in the hands of the Public Administrator, under administration, three estates, to wit: The estates of Adeline Eggleston, E. B. Tinkum, and David Knight. The Coroner has held but one inquest, in which he received fees and mileage in the sum of \$14 75.

We have not visited the several townships to investigate the books of the Justice of the Peace as no complaints have been made against them.

A committee of this body visited the Hospital and branch jail at Bodie. An inspection of the Hospital revealed the fact that the ventilation and cleanliness of the rooms of the patients might be improved. There are but three patients in the Hospital and they seemed to be satisfied with their treatment.

The sanitary condition of the Bodie branch jail is good, and no prisoners are confined there at present.

The report has come to the hearing of this jury that the practice of the jailer of said branch jail was to release prisoners before the term of their imprisonment had expired, and to charge the County for the board of said prisoners for the full term for which they were sentenced. We have investigated this matter and are unable to find any person who could substantiate the same.

In regard to the Lottery said to have been conducted in the town of Bodie, we are unable to find any evidence of it. We also investigated the condition of the road leading from the junction of Mormon and Dogtown creeks up the East side of Dogtown creek connecting with the road from Bridgeport to Mono diggings. We find the same obstructed with boulders and large rocks; and we recommend that the Board of Supervisors remove all obstructions immediately from the public highways and keep the same open for public use.

We find that in allowing bills the Board of Supervisors have not exercised that care in demanding, that all bills be carefully itemized, which the law contemplates and which good business principles would seem to require.

The Supervisors of the several road districts should require all persons who perform work on the County roads to state particularly on what bridge or portion of the public roads the work was performed and by whose order and should require each person to swear to his own bill.

We find that the amount expended in the Bodie road district \$405 25

Bridgeport " 467 00

Homer " 639 50

Antelope " 285 15

Benton " 118 00

Total for roads \$1,910 90

We consider this amount very excessive, considering the small mileage of the County roads.

We also find that there has been expended for school purposes the following amount: County school fund \$ 9 00

North Antelope school fund 561 47

Antelope " 493 30

Bodie " 1,756 14

Bridgeport " 1,453 38

Homer " 568 37

Antelope " 575 80

Benton " 350 96

Lundy " 476 19

Clinton " 678 42

Mono Lake " \$6,968 54

Total for schools \$14,788 50

Bills allowed against the Hospital fund \$4,788 50

We find that a very large amount of glass has been purchased for the Court House.

While we do not condemn the purchase we do recommend that cracked lights be not removed until absolutely necessary, and that the broken lights be retained as County property and sold for the benefit of the County and not retained for the benefit of the janitor, who is already paid a sufficient salary for all services performed by him.

A committee of the whole visited the jail and found it in good condition so far as cleanliness, and no person confined therein.

On examining the Court House we found that the plaster had fallen off in several places, and recommend the Board of Supervisors to have the same repaired at as small an expense as possible. We have been informed that the water pipe connected with the tank in the loft of the Court House was out of repair and, if so, recommend the Board of Supervisors to have the same repaired and that the tank be kept full of water.

Lord Rosebery and His Dog.
They tell a story of Lord Rosebery and his dog, Mutton, that is greatly to his credit, in a French newspaper. It appears that on a certain occasion the prime minister was making a voyage between Liverpool and Dublin in company with Mutton. Everything went well until Mutton began to frisk and gambol like a young lamb; and in his excitement fell overboard. Lord Rosebery shouted to the captain to stop the boat, but the latter refused, saying he couldn't stop for anything less than a man. Whereupon Lord Rosebery joined the dog, and the skipper was forced to bring to for the "man overboard." The premier and Mutton were picked up wet, but well. So it seems dogs as well as horses receive the distinguished consideration at Rosebery's hands.

A Queer Maple Tree.
A tree growing on the premises of S. G. Scott, Plainville, Mich., has been attracting scientific attention and investigation for a number of years. It is of the common hard maple, or "sugar tree," variety. Annually for at least ten years at this season of the year, or even as early as the last week in August, it sheds all its leaves and forthwith puts out new foliage. This second crop of leaves are full of moisture and readily succumb to the first heavy frosts of October.
